Solar bags

Wifi Hard Disk

#fg59

## Wifi device for hard disk

It can make your hard disk wireless..

What trouble can it resolve

- 1) when you access hard disk, don't need any USB cables, as it is wireless now!
- 2) Google drive, offer only 15G free, enough? Also it cant use in China as it is blocked
- 3) in the market, basic model for my Cloud price starts from USd150 or more, but use this, plus any hard disk you had, it works as a personal cloud !

## Induction Wireless Speaker

---

Portable Wireless Speaker with induction sensing

It is a portable speaker that doesn't require wires, wifi, configuration or pairing. Simply place your smart phone on top and you are done! It really is that simple.

The Smart Wireless Speaker is ideal for sharing music without any wires, connecting, mains plugs or docking. Just place your phone on top of the speaker, and by using the latest in induction technology you will receive a crystal clear sound emitting from the device.

Even if you have a case or cover on your phone, you can still enjoy clear music on the go at a surprising volume.
