

*Wireless Portable Speakers*

### **Portable Wireless Speaker with induction sensing**

It is a portable speaker that doesn't require wires, wifi, configuration or pairing.

- Simply place your smart phone on top and you are done! It really is that simple.
- The Smart Wireless Speaker is ideal for sharing music without any wires, connecting, mains plugs or docking.
- Just place your phone on top of the speaker, and by using the latest in induction technology you will receive a crystal clear sound emitting from the device. Even if you have a case or cover on your phone, you can still enjoy clear music on the go at a surprising volume.
